

Become a Volunteer

Volunteers play a vital role in the daily running of our organisation. Becoming a volunteer can be extremely rewarding and there's something new to learn every day.

Do you have a few hours to spare each week?

We need help caring for our animals, from responding to call-outs to feeding and mucking out bedding. Don't worry if you have no previous experience - all we need is enthusiasm and dedication. Supervision and on-site training is provided.

Do you have specialist skills you could offer?

Whether it's carpentry, building, electrical work, plumbing or any other specialised skill you have to offer, we can use it!

Do you have materials to donate?

Perhaps your organisation could provide supplies such as building materials for the hospital or food for our animals?

Keen to volunteer but not sure what help to offer?

Have a chat with us - we're sure we'll find something for everyone.

For further information, call us on 01980 629470.
